

Transistor  
Time Relay

Part No.

HHS4R(JSMJ)

- For circuit of AC 50Hz, up to 380V or 24VDC
- As per standard GB14048.5-2008 & JB/T 10047-1999
- Long life and low consumption

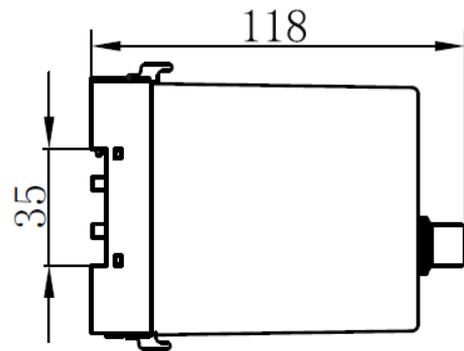

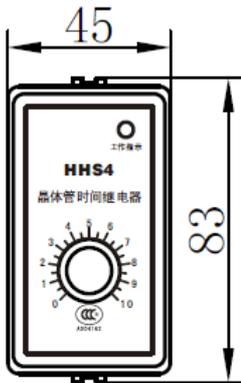

TECHNICAL DATA

|                 |                                               |
|-----------------|-----------------------------------------------|
| Operation Power | DC24V;AC24V、220V、380V                         |
| Delay Range     | 1s 5s 10s 30s 60s 120s<br>180s 360s 720s 900s |
| Repeat Error    | ≤1%                                           |
| Working Mode    | Cycling Delay Time,                           |

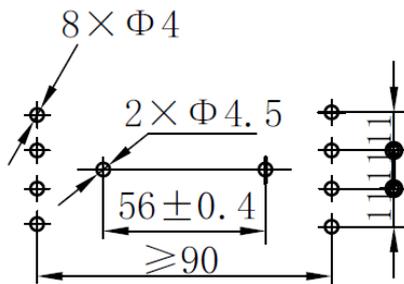

Contact Arrangement 2Z Delay

|                   |                      |
|-------------------|----------------------|
| Contact Capacity  | 3A AC220V(Resistive) |
| Outline Dimension | 83 x 45 x 118mm      |
| Cut-Out           | 56 - 2 x Φ4.5mm      |
| Mounting Mode     | Device、35mm Din-rail |
